Disclaimer

The details and descriptions contained in this document are believed to have been accurate and up to date at the time the document was written. The information contained in this document is subject to change without notice.

HYCU provides this material "as is" and makes no warranty of any kind, expressed or implied, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. HYCU shall not be liable for errors and omissions contained herein. In no event shall HYCU be liable for any direct, indirect, consequential, punitive, special or incidental damages, including, without limitation, damages for loss and profits, loss of anticipated savings, business interruption, or loss of information arising out of the use or inability to use this document, or any action taken based on the information contained herein, even if it has been advised of the possibility of such damages, whether based on warranty, contract, or any other legal theory.

The only warranties for HYCU products and services are set forth in the express warranty statements accompanying such products and services. Nothing herein should be construed as constituting an additional warranty.

Notice

This document is provided in connection with HYCU products. HYCU may have copyright, patents, patent applications, trademark, or other intellectual property rights covering the subject matter of this document.

Except as expressly provided in any written license agreement from HYCU, the furnishing of this document does not give you any license to these patents, trademarks, copyrights, or other intellectual property on HYCU products. Use of underlying HYCU product(s) is governed by their respective Software License and Support Terms.

Important: Please read Software License and Support Terms before using the accompanying software product(s).

What's new

This service patch includes a number of enhancements and fixes designed to help you keep your data protected and safe in a simple and efficient way. The most significant ones are the following:

- A custom application security group (ASG) can now be associated with the temporary virtual machine that HYCU for Azure creates for data protection purposes. For instructions, contact HYCU Customer Support.
- When signing in to HYCU for Azure, you can now select a preferred Azure tenant if your HYCU for Azure subscription has multiple tenants.
- When configuring virtual machine backup options, you can now pass parameters to pre-snapshot and post-snapshot scripts.
- The HYCU for Azure web user interface experience has been enhanced to clearly distinguish between the main view filter and the detail view filter.

How to start using HYCU for Azure

Delivered as a Data Protection as a Service (DPaaS) solution, HYCU for Azure requires no deployment. You subscribe to the service online from the Azure Marketplace and HYCU then activates the service for you.

For detailed information about subscribing to HYCU for Azure, see the *HYCU for Azure User Guide*.

Supported infrastructure

For information about the supported infrastructure, see the *HYCU for Azure Compatibility Matrix*.

HYCU for Azure documentation set

The HYCU for Azure documentation set includes the following documents that are available online at <https://docs.azure.hycu.com/>:
